The following shortcomings have been noticed in the proposal, which may be completed:

1. In the uploaded justification it has been mentioned that alternate alignments have been examined. But against column No.D(ii), 'No', has been mentioned. The present road has already been constructed in violation of FCA, 1980, hence there is no need to examine the alternate alignments. The contents of justification are required to be revised accordingly and revised justification is required to be uploaded.
2. Against column No.4(ii) in online part-II, the scientific names of the trees are not correct. The scientific name of chil is not correct. Further, the scientific name of all trees have not been mentioned, for 4 trees, others and broad leaved has been mentioned. Necessary correction is also required to be made in online part-II against column No.4(ii).
3. The forest land for carrying out CA 4.356 ha been proposed but while calculation CA area in KML file, it is coming 3.56 ha instead of 4.356ha. Revised KML file is required to be uploaded against column No.13(i).
