

1. Short narrative of the project does not provide adequate information Part I.
2. Total period for which land proposed to be diverted is not correctly filled in Part I.
3. Village wise break up shows that the road is passed through the boundary of one village but in the details of beneficiaries 6 numbers of villages are mentioned. The State Govt may clarify that if the area of only one village is covered under the proposed road then how the other five villages are benefited by the proposed road and if required correct the information in village wise break up accordingly.
4. Component wise break up is incomplete as the area designated for muck disposal is not shown in component wise break up in Part I.
5. The details pertaining to alternate examined is not provided in Part I neither the required map showing the alternate alignment examined is uploaded in the designated column in part I.
6. Employment generation details are not furnished in Part I.
7. Village level committee proceeding provided for only one village though as per detail furnished with the hard copy that 6 villages are benefited with the road. The State Govt may clarify that does the road passed through the boundary of other 5 villages or not and if required the proceedings for other gram sabhas may also be furnished.
8. GIS software generated georeferenced map showing digitally marked geo-coordinate for 200-300m along the alignment including all turns of the proposed road may be uploaded in designated column in Part I. The Google map will not accepted for the purpose.
9. GIS software generated georeferenced map showing digitally marked geocoordinates of all corners of the area proposed for CA in polygon/closed shape file may be uploaded in the designated place in Part I. The google map will not be accepted for the purpose.
10. In the DSS analysis the area marked for CA shows presence of 3 ha area out of total area 9.974 ha in moderately dense forest which is not suitable for CA. The State Govt may propose this 3 ha area at some other suitable place and revise the KML, georeferenced digital map showing coordinates of all corners accordingly and upload same in the designated place in Part I.
11. The administrative approval provided in the hard copy is not clearly shown the length of the road approved. The State Govt may clarify that the administrative and financial approval is available for the total length of the road proposed or not and if required the visible copy of approval may be provided in this office.
12. It is not clear that the area of 0.386359 ha marked for muck disposal is included in the area proposed for diversion or not.
