6.PCCF (HoFF), AP, Guntur, Rc.No.EFS02-17/23/2020/IT, Dt:20.02.2023.  
7.Executive Engineer, PR(PIU) Division, Kakinada Uplodaded the PART-I proposals in PARIVESH portal.on dt.24.06.2023.

<<<@>>>

With reference to the above, the Executive Engineer, PR (PIU) Division, Kakinada has uploaded the PART-I proposal of the Sunnampadu to Thurruru road file for the diversion of **4.08 ha (2.35 ha forest land + 1.73 ha Enclosure area) in the PARIVESH portal.**

In this Connection The user agency has handed over the CA area over an extent of 4.73 ha in Thurangi Village of Kakinada Range of Kakinada Division, but the identified CA (NFL) area contains good vegetation of Mangrove plants with 0.7 density, so there is no scope for further planting or other works.

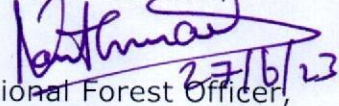

In this regard, as per FCA guidelines, the user agency must identify the Degraded Forest Land for the raising of 1000 plants per hectare.

In light of the above, the Degraded Forest Land is identified by the Forest Range Officer, Rajavommangi, at compartment no. 530 of Rajavommangi Beat of Rajavommangi Section of Rajavommangi Range of Rampachodavaram Division.

Further, the user agency has requested to consult the Forest Range Officer, Rajavommangi, and conduct the DGPS survey in the identified degraded forest area, and the same is submitted to this office for authentication. After authentication, the same will be uploaded in Parivesh Portal Part-II proposals.

This is submitted for favour of information.

Yours faithfully

27/6/23  
Divisional Forest Officer,  
Rampachodavaram Division,  
Rampachodavaram.
