

**Construction of Fire Post at Keylong Distt. L&S HP (0.0405 ha)**

Following shortcomings may be attended by State Government:

1. In the title of the proposal 'Construction of Fire Post at Keylong' is mentioned. However, the justification uploaded at para-D online Part-I (pg. No. -22 of hard copy) and layout plan (pg. No.-18 of hard copy) of the proposed construction shows that building proposed to be constructed is for residential purpose, which is not permissible under the guidelines para 4.5 (i) & (ii).
2. In the CA scheme placed in hard copy of the proposal at page-39 and also uploaded online at para-13 of Part-II, the area is mentioned as 0.0405 ha and it is also mentioned that minimum 100 tall plants will be planted, which is confusing. State Govt, may either propose CA on double the area on degraded forest land or propose planting of 100 trees by way of CA as per the guidelines para 3.2 (viii) (b). The State Govt. may clarify the same and upload necessary details and document accordingly in online portal as well as in hard copy. In case, it is proposed to plant 100 trees by way of CA then extent of area of CA may not be mentioned online in the Table (Patch wise details) at para- 13 (i) of Part-II as well as in the Scheme for Planting 100 trees.
3. Details regarding employment likely to be generated given at para- E of online Part-I does not appear to be correct.
4. Approximate distance of the site proposed for diversion is mentioned as 0.00 km at para-7 of Part-II online which does not appear to be correct. May provide distance of the proposed site, towards inside, from the boundary of forest.
