

PROPOSAL NO. FP/UK/ROAD/9783/2015

1. Total period for which the land proposed to be diverted is not mentioned in online Part I.
2. Component wise break up is not provided in online Part I. The component wise break should mention the area wise detail of each component like road, bridge, muck disposal etc. The State Govt may provide the same in online Part I.
3. The copy of GIS software generated geo referenced digital map is without showing geo coordinates while geo-coordinates should be at 200 to 300 m interval along the alignment of the proposed road including all turning points. The revised map may upload showing digitally marked geo-coordinates on the map placed in the designated column in online Part I.
4. The digital map of area proposed for CA is provided with only four geo-coordinates shows on google map which does not serve the purpose. May provide/upload GIS software generated geo referenced digital map of the area proposed for CA providing geo coordinates at all corner points in shape (polygon/closed area) file.
5. The number of villages to be benefited by this road is three while as per the detail in village wise break up in online Part I only one village is mentioned. The State Govt may explain that how the other villages are benefited while the road proposed is passing through the boundary of only one village. If required change the details in village wise break up in online Part I accordingly.
6. If this project involve boundary of other villages as mentioned in the list of villages to be benefited then proceedings of village level committee meetings pertaining to these villages may also be furnished with the FRA certificate.
