L/M7-3478/2019

dated 07.07.2020

QUERY - MANKULAM VALARA TRANSMISSION LINE

1. Joint Survey / Joint verification is to be done.

- a) Initially, Joint Survey is to be done with the Munnar Forest Division Surveyor and a survey sketch is to be provided for the 32.081 Ha Forest Land and also for the 7.245 Ha Non Forested land to understand and identify the actual Land Status.
- b) After the identification by Joint survey, Joint Verification shall be done with the respective RFO and DFO, Munnar to understand the No. Of trees to be cut, the transmission line height and any other site specific issues.
- c) For the both of the above cases, dates shall be fixed with consultation and announced without delay.

2. The KML file uploaded in the site is a Straight line which at many points are even below the terrain. So the entire 32.081 Ha area or whichever is fixed after the joint survey/ joint inspection, shall be given in a polygon mode(single or segmented) to the DFO or Nodal officer, in Soft copy and in hard copy.
