

OFFICE OF THE COSERVATOR OF FOREST, YAMUNA CIRCLE.

Name of proposal- Kathiyan to Dirnad Motor Road Under PMGSY
FP/UK/ROAD/34380/2018

On the scrutiny of Proposal shortcomings found are as follows:--

1. Copy of non encumbrance certificate is not upaloded at para L-iv-h of online part I. Instead, suitably certificate of land selected for CA is uploaded. Non encumbrance certifiicate should be bearing the declaration that land selected of CA is free of any legal dispute and not occupied by any one, not alloted for any other purpose to anyone or any institution etc.
2. In the list of trees uploaded at additional information details of online part I, total 140 trees have been counted only in 6.00 metre width wheareas in other documents contained in hard copy of proposal (prapatra-21, 21.1, and 24) total 314 trees have been mentioned to be felled. Further more, on the obervation of other documents like Certificate of width and lenth of project, Joint inspection report, Bar cart and Prativaden, it has been found that width of road in forest land is 7 metre. But trees counting list uploaded online is of 6 metre width. User agency and DFO provide clarifcation or do the necessary correction in this regard.
