

FP/UK/ROAD/13914/2015

Following shortcomings are still remained in the proposal and may be attended by the State Govt.:-

1. In the village wise breakup at para B 2.3 online Part I the name of villages are mentioned as “Lalnagari and Basnal gaon” while the village level committee (VLC) proceeding is provided only for the village “Lalnagari”. The State Govt may also provide VLC proceeding for the village “Basnal Gaon” and upload the same at para K, online Part I as annexure of FRA certificate.
2. In the digital map of the proposed area uploaded at C (iv) Part I online is google earth image and does not serve any useful purpose. May upload GIS software generated geo referenced digital map of the area proposed for diversion providing geo coordinates of 200-300m along the proposed alignment including geo-coordinates of all turns. Original hard copy of this map may also be provided.
3. In para K online Part I the FRA certificate issued by DC is not found uploaded with all annexures regarding district level committee proceeding, sub-divisional level committee proceeding and village level committee proceeding which are uploaded as an additional document in online Part I. The State Govt may upload the FRA certificate with all annexures at para k online Part I. The date of FRA certificate issued by district collector may also be mentioned.
4. All the documents available in the hard copy of the proposal are photocopies and not the original documents. State Govt. may provide hard copy of the proposal folder containing all original or attested copies of the documents. However, the FRA certificate and the geo-referenced digital maps of proposed road and CA should be in original.
