With reference to the above subject, this office vide ref (1) has communicated the Government of India EDS query and directed to submit clarification/information. Accordingly, the Deputy Conservator of Forests, Belagavi Division and Chief Conservator of Forests, Belagavi Circle vide Ref (2) & (3) have submitted the documents/information to this office. The same has been verified and found to be incomplete.

The Government of India has sought the measures taken for shifting the Niravanappa temple located in Sy no. 410 of Gokak village and Taluk to another location. In this regard, the User Agency and Field officers have stated that the relocation of temple will not be done. Hence, project authorities have decided to keep the temple at its original place with good accessibility without shifting the location to another location with suitable water retaining structure as constructed in Kudalasangama, Karnataka.

However, the project cost for construction of retaining structure around the temple has not been factored in to the project cost.

Therefore, you are directed to obtain the project cost for construction of retaining structure around the Niravanappa temple from the Deputy Conservator of Forests, Belagavi, Division and the User Agency and submit the same to this office for further processing of the proposal. The online link is transferred to you for further transfer of the same to the User Agency through the Deputy Conservator of Forests, Belagavi, Division.
