**The following shortcomings are found in the proposal:-**

1. Gagette notification copies are not given in online proposal and in hard copy of the proposal for Baran division.
2. Calculation of amount of NPV in words for KOTA division is incorrect. No changes are made by DCF Kota.
4. CA scheme given for NFL and DFL lands by KOTA division are in much higher side and not justified. These should be rectified as per prevailing models. CCF reply is not acceptable. For both the divisions, these calculations should be rational.
