Ref: PCCF J&K Govt. Srinagar's letter No. PCCF/FCA-2752/4786-89 dated 06.09.2018.

Sir

Kindly find enclosed herewith the proposal (five copies) on the prescribed format as per J&K Forest Conservation Act of 1997 regarding diversion of forest land measuring **5.029 Ha. (Road = 4.092 Ha, dumping 0.937 Ha)** needed for construction of road from **Khourgali to Radnote** by PMGSY Division Udhampur passing through compartment **45/P and 46/P** as per the Nishandehi given by the representative of the user agency. The joint inspection/ verification has been conducted by the Range Officer, Panchari alongwith the representative of the user agency.

As a large number of trees (699) are coming under the alignment of road so User Agency was requested vide this office letter No. 3041-44/FDU Date: 16.10.2019(Copy enclosed) to reconsider the said proposal for reducing the width/reducing the number of dumping points in the forest area so that the number of trees can be reduced to the bare minimum consequent upon which, the User Agency has submitted vide letter No. PMGSY/Udh-II/R/2019-20/2463-2468 dated 17.10.2019 (Copy enclosed) that they have explored all the possibilities and it is not possible for them to change the alignment as it will hampered the stability and durability of the road as the area is hilly and terrain is sloppy. Further, they have submitted that there is no possibility of reducing the number of trees coming under the alignment of this road.

Sir

Kindly find enclosed herewith the proposal (five copies) on the prescribed format as per J&K Forest Conservation Act of 1997 regarding diversion of forest land measuring **1.16 Ha. (Road = 0.690 Ha, dumping 0.470 Ha)** needed for construction of road from **Dabbar to Kultair Pain** by PMGSY Division Udhampur passing through compartment **9/P** as per the Nishandehi given by the representative of the user agency. The joint inspection/ verification have been conducted by the Range Officer, Panchari, alongwith the representative of the user agency.

As per joint inspection report, a CAMPA Closure established by the Udhampur Forest Division during the year 2011-12 and a MFP Closure established by the MFP Division Jammu during the year 2018-19 is coming under the alignment of road at RD 0-500 and 1300-1950. Regarding this, the User Agency has submitted that technically, it is not possible to change the alignment of road at the starting point as it will result in steep gradient of the road with vulnerability to land sliding and sinking of the sub grade. Moreover, the stability and durability of the road will be hampered, if the proposed alignment is deviated (Copy of Joint Inspection Reports enclosed).

Sub: Proposal for diversion of forest land for construction of road from “Khourgali to Radnote” under PMGSY.

Sir

On the above noted subject, a caseregarding diversion of forest land for construction of road from “**Khourgali to Radnote**” has been submitted by user agency in the office of undersigned after joint survey exercise and after going through the case, it has been observed that large no of trees i.e., 600 trees/poles are coming under the alignment of proposed road in the forest area including species like chir, kail, Deodar etc. Further, total length of proposed road is 13.92 km and length in forest area is 6.820 km i.e., 49% of total proposed alignment of road. Total forest area proposed for diversion in this case is 5.342 Ha and out of that 1.25 Ha (i.e., 23 %) forest area has been proposed for dumping points. Moreover, number of dumping points proposed in the forest area is large i.e., 20 (twenty) and all of them are proposed only inside the forest area excluding options in state and private land.

Therefore, keeping in view of above facts, you are requested, to reconsider the said proposal for reducing the width/reducing the number of dumping points in the forest area and exploring options of dumping points elsewhere, reducing the forest area proposed for diversion to the bare minimum and for mitigating the potential ecological threat to landscapeconcerned.

Sub: Proposal for diversion of forest land for construction of road for construction of road from Khourgali to Radnote under PMGSY.

Sir

On the above noted subject, a case regarding diversion of forest land for construction of road from Khourgali to Radnote has been received in this office for

In continuation to this office letter No. 1943-46/FDU dated 30.07.2019, the FCA case regarding the subject cited above was submitted to your office for forest clearance. Further, the case was discussed in the 116th FAC and was deferred by the Forest Advisory Committee with the observations that it involves removal of large number of deodar/Kail trees. FAC directed the User Agency to reconsider the alignment/ width of road so as to ensure minimum felling of Deodar/ Kail trees as far as possible. Accordingly, the matter was taken up with the User Agency and the proposal was re-examined after carrying out Joint Inspection. The revised proposal involves **1.165 Ha** of forest land and **99 no. of trees/ poles** against the **1.23 Ha.** of forest land and **139 no. of trees/ poles** involved in the earlier proposal by reducing the width of the road from 6 mtr to 5 mtr.

In view of above, kindly find enclosed herewith the revised proposal (five copies) on the prescribed format as per J&K forest conservation Act of 1997 regarding diversion of forest land measuring **1.165 Ha. Sub: Revised proposal for diversion of forest land for construction of road for construction of road from Charal to Nappah under PMGSY.

Ref: Your office letter No. 340-42/CFE/FCA dated 26.09.2019.

Sir

In continuation to this office letter No. 1943-46/FDU dated 30.07.2019, the FCA case regarding the subject cited above was submitted to your office for forest clearance. Further, the case was discussed in the 116th FAC and was deferred by the Forest Advisory Committee with the observations that it involves removal of large number of deodar/Kail trees. FAC directed the User Agency to reconsider the alignment/width of road so as to ensure minimum felling of Deodar/ Kail trees as far as possible. Accordingly, the matter was taken up with the User Agency and the proposal was re-examined after carrying out Joint Inspection. The revised proposal involves **1.165 Ha** of forest land and **99 no. of trees/ poles** against the **1.23 Ha.** of forest land and **139 no. of trees/ poles** involved in the earlier proposal by reducing the width of the road from 6 mtr to 5 mtr.

In view of above, kindly find enclosed herewith the revised proposal (five copies) on the prescribed format as per J&K forest conservation Act of 1997 regarding diversion of forest land measuring **1.165Ha.** (Road = **0.6325 Ha**, dumping = **0.5325 Ha**) needed for construction of road from **Charal to Nappah** by PMGSY Division Udhampur passing through compartment **20/D&21/Das** per the Nishandehi given by the representative of the user agency. The detail is as under:
