C I R C U L A R

Sub: Measures for stabilization of Muck Dumping Sites.

Chief Engineer, PMGSY, Jammu has prepared a Model Plan relating to engineering measures for stabilization of muck dumping sites. All user agencies are advised to prepare the detailed plan on the lines of this Model plan (copy enclosed) for stabilization of muck dumping sites. Execution of the proposed engineering measures shall be carried out by the user agencies from their own resources.

2. In addition to the plan, detailed calculation of muck disposal to dumping sites and their dimension, as per the enclosed sample, is also to be carried out and enclosed with the plan for stabilization of muck dumping sites.

3. Biological measures for stabilization of muck dumping sites has already been shared vide Circular No. PCCF/FCA/3118/6141-80 dated 29-03-2021 (copy enclosed). These measures shall be executed by the Forest Department and cost thereof shall be borne by the user agencies.

The Additional Pr. Chief Conservator of Forest,
Nodal Officer (FCA)
Van Bhawan, Jammu.

No.: CEJ/PMGSY/ 23372-75

Dated: -3/103/2021

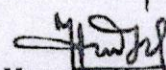

Subject: Engineering Measures for stabilization of Muck Dumping Sites.

Ref: Your Office Circular issued under Endorsement No. PCCF/FCA/3118/6141-80 dated 29.03.2021.

Sir,

As desired vide your above referred letter, kindly find enclosed Model Plan related to Engineering Measures for Stabilization of Muck Dumping Sites in Forest Area with respect to PMGSY Jammu as per Annexure- "A" & "B" for your perusal please.

Yours faithfully,

(Er. Manzoor Hussain)

Chief Engineer

PMGSY JKRRDA

Jammu

Copy to the: -

1-3/ Superintending Engineer PMGSY Circle Jammu/Reasi/Batote for information and necessary action.

Model Plan related to Engineering Measures for Stabilization
of Muck Dumping Sites in Forest Area.

Typical Estimate for construction of Crated Wall to protect dumping sites of Surplus
Muck/Excavated Material in Forest Area as per Engineering Measures.

Taking length of Crated Wall = 60.00 Mtrs.

Trench Excavation in Dense Soil

for structures = 1 x 60 mtr x 1.4 mtr x 0.6 mtr

= 50.40 Cum @ Rs. 332/Cum

= Rs. 16732.80 (say Rs. 16733/-)

For Two layered Crated Wall,

Quantity = 2 x 60 mtr x 1.20 mtr x 1.20 mtr = 172.80 Cum.

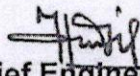

Amount = 172.80 Cum @ Rs. 1200/Cum (including cost of
crates and labour for handling of available stones)

= Rs. 207360/-

Total amount for 60.00 Mtrs Two Layered Crated Wall = Rs. (16733+207360)

= Rs. 224093/-

Rate per Mtr = Rs. 3734.88 (say Rs. 3735/Mtr).

Chief Engineer
PMGSY JKRRDA
Jammu

Sub: Biological measures for stabilization of muck dumping sites.

Ref: This office Circular issued under No. PCCF/FCA/3118/4969-5027 dated 17-03-2021

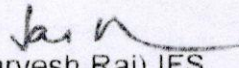

Some of the forest land diversion proposals under the Forest (Conservation) Act, 1980 include proposals for muck dumping sites on forest lands. In such cases, the IRO Jammu has been seeking detailed plan for stabilization of muck dumping sites.

The plan for stabilization of muck dumping sites shall include biological and engineering measures in accordance with the guidelines/model plan shared vide above referred to circular.

A model plan providing biological measures for stabilization of muck dumping sites has been approved by Pr.CCF (HoFF), which is enclosed herewith.

In addition, the user agencies are requested to prepare a Model Plan related to engineering measures for stabilization of muck dumping sites and also to share with this office.

All user agencies are requested to include a detailed plan including biological and engineering measures for stabilization of muck dumping sites in accordance with the Model Plans.
