A copy of the reference 7<sup>th</sup> cited is enclosed herewith, wherein the Integrated  
Regional Office, MoEF&CC, Gol, Hyderabad has called for certain additional  
information on the subject proposal for further consideration of the proposal.

The IRO, MoEF&CC, Gol, Hyderabad has informed that the proposed alignment is  
deviating from the existing road and is cutting across the forest area leaving a small  
fragment / patch of forest, which is prone to encroachment in future. In view of the  
said fact, it was requested to follow the existing road alignment instead of diverting  
from the existing road. The proposed alignment, if approved will leave about 2-3 Ha  
of FL making it vulnerable to encroachment. Further, if the road is aligned along the  
existing road and the outer boundary of forest, the road may act as a permanent  
boundary to the forest area. Therefore, the proposed road may be aligned along the  
existing road and the outer boundary of notified forest before it joins the private land  
and requested to submit revised alignment of proposed road for further processing  
and consideration.

In view of the above, the Executive Engineer, R&B Division Kamareddy District is  
requested to submit DGPS raw-data for the revised alignment as suggested by the  
IRO, MoEF&CC, Gol, Hyderabad and submit the same to this office for verification and  
authentication. The DGPS survey is to be conducted in the presence of the staff of  
District Forest Officer, Kamareddy.

The Executive Engineer, R&B Division Kamareddy District is requested to ensure that

File No.PCCF-FC1/FC03/61/2022-FCA SECTION

no work is taken up in violation of the Forest and Wildlife Act in the forest area in question, before obtaining forest clearance. If any work in violation is carried out, the concerned will be held responsible and necessary action as per the rules and guidelines in vogue will be taken up.

This should be treated as Most Urgent.

Encl.: As above.
