

**FP/UK/ROAD/16265/2015**

Following shortcomings may be attended by State Government:

1. The data provided in the column of employment details at para E (iii) online Part I appear to be incorrect especially the data provided for permanent/regular employment. The State Govt may review the same and provide correct data in online part I.
2. In the Cost Benefit (C/B) analysis uploaded in para G online Part I, columns are not quantified of both Performa VI b and VI C needs to be quantified in monetary terms. The revised C/B analysis after necessary correction may upload in para G online Part I.
3. In the village level committee (VLC) proceedings attached with the FRA certificate at para K, online Part I the State Govt may review the name of villages/Panchayats given in the proceedings and rectify the information. In annexures with the FRA certificate various corrections are made which need to be authenticated by the issuing authority. The correct copy of FRA certificate with all annexures may upload at para K, online Part I and also provide original hard copy to this office.
4. All the documents available in the hard copy of the proposal are photocopies except geo-referenced map for area proposed for diversion and not the original documents. State Govt. may provide hard copy of the proposal folder containing all original or attested copies of the documents. However, the FRA certificate and the geo-referenced digital maps of area proposed for CA should be in original.
5. In the DSS analysis the area proposed for CA calculated as 14.0 ha while the proposed area for CA in this proposal is 10.5462 ha. The State Govt may upload revised KML for area 10.5462 ha at Para L, online Part I and para 13, online Part II.
