Attention is invited to the above subject. 0.0475 Ha of forest land has required for the proposed project for the implementation of Randampuzha Drinking Water Project under Kizhakkanchery Grama Panchayath vide ref.1<sup>st</sup> cited. Inspected the proposed project site on 12/03/2022, forest land required for the proposed project is not demarcated and hence the exact forest area required for the implementation of the proposal is clearly not known during the filed inspection and informed to conduct the joint survey with forest and irrigation officials and refix the exact forest land required for the project. Thereafter, conducted the joint survey and found that 0.0243 Ha forest land is to be required in 2 locations viz 447 mtr x 0.5 mtr (0.02235 Ha) and 39 mtr x 0.5 mtr (0.00195 Ha) for the implementation of Randampuzha Drinking Water Project. Hence, the proposal is returned to the User Agency and directed to resubmit after change the requirement of forest land as 0.0243 Ha instead of 0.0475 at the earliest.

Yours faithfully,

  
**Divisional Forest Officer**
