Sub : Proposal for diversion of 4.40 ha of forest land for construction of 220 KV Double Circuit Rangpo (PG) - Samardong Transmission Line under Comprehensive Scheme for Strengthening of Transmission and Distribution System in Sikkim in South District of Sikkim by Energy & Power Department Govt. of Sikkim.

Sir,

Please refer to the State Government's letter No. 1790/FCA/FEWMD/52 dated 16.04.2019 on the subject mentioned above, seeking prior approval of the Central Government in accordance with Section 2 of the FCA, 1980. The proposal forwarded by the State Govt has been examined in this office in the light of Forest (Conservation) Act, 1980, and rules/guidelines framed thereunder. The State Govt. is requested to provide following additional information for further processing of the case: -

- (1) To re-submit the shape file for proposed diversion site, clearly mentioning the forest area involved i.e. 4.40 ha., as the submitted shape file after analysed and calculated by DSS software is found to have an area of 5.451801 ha. instead of 4.40 ha.
- (2) The State Govt is to explore alternate C.A site as the proposed C.A site is found to have Moderately Dense Forests in the entire area. This is in view of the latest guidelines of MoEF & CC dated 20.04.2019.
- (3) To re-submit the scanned SoI toposheet map along with GPS Co-ordinates for the proposed diversion area and for Compensatory Afforestation area as the maps submitted are without GPS Co-ordinates.
- (4) A 3-dimensional sketch of the transmission line showing dimensions of tower with its foot- prints, etc. along with vertical & horizontal clearances and average height of strings from the forest floor may be furnished.
- (5) To re-submit the Compensatory Afforestation Scheme with maintenance period for 6 – 10 years.
- (6) The shortest distance of the proposed forest land diversion from nearest Sanctuary, National Park etc., may be informed.

This is issued with approval of Addl. Director General (Central).

भवदीय,
