

ANNEXURE H2-A
BIODIVERSITY IMPACT ASSESSMENT

Biodiversity Impact:

There is no endangered flora and fauna in the proposed area for removal of minor mineral and dust sand quarry over an extent of 1.80.0 Hectares in Survey Nos. 204/3B2 (0.58 Ha.), 208/3A1 (0.77 Ha.), 209/5A (0.45) in Seepalakottai village, Uthamapalayam Taluk, Theni District, which falls outside the boundary of Valasumalai which belongs to Megamalai Wildlife Sanctuary (Protected Area) areas.

The area proposed for removal of minor mineral and dust sand quarry is not a part of Elephant corridor and migratory path of any wild animals. The existing biodiversity of Megamalai Wildlife Sanctuary will not affect due to implementation of this quarry project.

There will not be any negative impact upon the nearby wildlife sanctuaries due to this project. There is no human-wildlife conflict incident in this area.

Date : 11 /10/2019.
